Cheshire Bridge Streetscape

Depiction Typical Improvements

June, 2006

The Department of Public Works is pleased to announce the implementation of the Cheshire Bridge Streetscape project along Cheshire Bridge Road, Council District 6.

Description: This project is located within the limits of the City of Atlanta on Cheshire Bridge Road from Piedmont Road to Manchester. The project includes the relocation of 11 Georgia power poles, five (5) of which have cobra street lighting standards attached. It also provides new concrete curbing, 8 foot sidewalks, 22 decorative streetlights, 52 appropriate size street trees, and a multitude of various shrubs and ground cover on each side of Cheshire Bridge Road.

Funding: Federal Funds (Transportation Enhancement): \$400,000
Local Funds (Quality of Life): \$100,000

Status: The project is currently in the construction and is scheduled to be completed Summer, 2006

Additional Project Information

The master plan project limits for Cheshire Bridge Road are from Piedmont Road to Lindbergh Road (1.1 miles in length). However, this project is a prototype of other projects along Cheshire Bridge Road which are anticipated to create a more walkable community. Phase 1 of this streetscape project will utilize existing approved funding; other sections will mirror-image this section and will be submitted for funding and design approvals in the future.

All construction will conform to the regulations of the current Americans with Disabilities Act (ADA) requirements.
